

Australian Dolomite

Supplied by FORMA Living, quarried in the Pilbara region of Western Australia — a new chapter in locally sourced natural stone for luxury residential and commercial projects.

A new chapter in Australian stone

FORMA Living has secured direct supply of a dedicated dolomite resource in Western Australia's Pilbara region. It's a natural extension of our 25+ years connecting architects and designers with the world's finest surfaces — only now, it starts at the quarry itself.

THE STORY OF AUSTRALIAN DOLOMITE

Australian Dolomite is drawn from the Pilbara Craton, one of the oldest and most stable pieces of the Earth's crust — a geological foundation laid down between 1.6 and 3 billion years ago. Chemically defined as $\text{CaMg}(\text{CO}_3)_2$, the stone owes its density and long-term stability to this extraordinary depth of geological time.

Across billions of years, sustained tectonic stability allowed the material to gradually densify and release internal stress, resulting in a stone with highly predictable performance — one that has, quite literally, had all the time in the world to settle into itself.

Trace metal ions and fine mineral particles, carried through the rock over deep time, give each colourway its character — from the warm grey drift of AusDream to the layered red of AusRed and the mineral hush of Pindanni Green. No two slabs read quite the same; all share the same ancient origin.

FORMA Living now supplies this resource direct from quarry to warehouse — coordinating block selection, grading and supply, and bringing a new Australian-sourced alternative to the imported stone that has long defined the category.

DIRECT QUARRY SUPPLY,
PILBARA REGION

Resource Origin

Sourced direct from a dedicated quarry resource in Western Australia's Pilbara region, developed under strict environmental and mining standards, with respectful engagement with First Nations Traditional Owners.

Material Performance

Balanced density, compressive strength and low water absorption deliver predictable, long-term performance across interior and exterior architectural applications.

Geological Formation

Formed within the Pilbara Craton through Proterozoic-era processes, producing a dense, structurally coherent dolomite body with exceptional long-term durability.

An Integrated System

One coordinated colour matrix across finishes — honed, polished and leathered — supporting a single, unified material language from benchtop to facade.

Our *Australian* Dolomite range

A curated colourway selection sourced direct from the Pilbara region. Slab viewing available by appointment at our Brooklyn warehouse, with bookmatching and custom finishes on request.

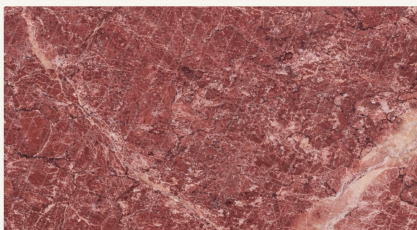

AusDream

DOLOMITE · PILBARA WA · WARM GREY

A warm, flowing grey with calm, continuous movement. Thick beds of consistent colour make it a dependable choice for large-format applications.

Kitchen Islands · Lobbies · Facades · Flooring

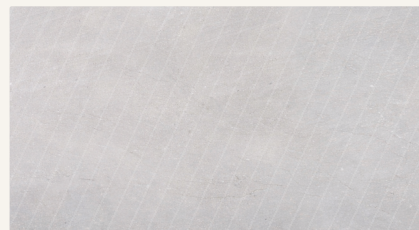

AusRed

DOLOMITE · PILBARA WA · RED

Deep, layered red drawn from iron and manganese-rich fluids fixed within the dolomite fabric over deep time. Bold and colour-stable.

Facades · Feature Walls · Vanities · Bar Counters

Minos Grey

DOLOMITE · PILBARA WA · NEUTRAL GREY

A restrained neutral grey with subtle natural movement and balanced tone — a composed, versatile base for considered interiors.

Benchtops · Flooring · Wall Cladding

Minos Beige

DOLOMITE · PILBARA WA · BEIGE

Warm beige with soft tonal transitions and restrained veining, offering a refined and harmonious presence for contemporary spaces.

Benchtops · Bathroom Vanities · Flooring

Tanier Pink

DOLOMITE · PILBARA WA · SOFT PINK

A gentle, restrained pink shaped by trace iron within the dolomite lattice, moderated by fine hematite grain — quietly distinctive.

Vanities · Powder Rooms · Feature Walls

Pindanni Green

DOLOMITE · PILBARA WA · GREEN

Stromatolitic dolomite densified by ancient intrusions, its Fe-Mg enrichment producing a stable, earthy green tone with quiet rhythm.

Powder Rooms · Joinery · Feature Moments

AUSRED — INSTALLED

BAR COUNTER, AUSRED HONED

WASH BASIN SURROUND, AUSRED HONED

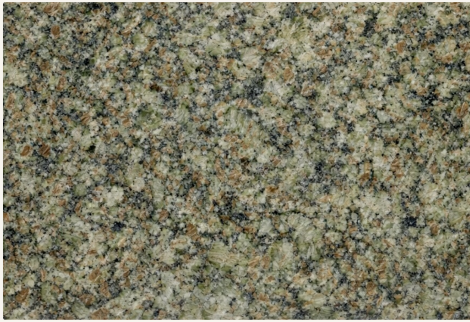

Blackish Cloud

DOLOMITE · PILBARA WA · CHARCOAL / BLACK

Dark tonal movement carried by organic-rich microbial laminae and subtle iron banding, giving a restrained yet expressive presence — a quietly dramatic anchor for architectural surfaces that call for weight and depth.

Fireplaces · Feature Walls · Commercial Reception Desks · Cladding

Laguna Verde

DOLOMITE · PILBARA WA · BLUE-GREEN

A pale blue-green with a soft grey undertone, its character shaped by iron-bearing minerals within the stone. Low jointing across thick beds allows for consistent large-format supply.

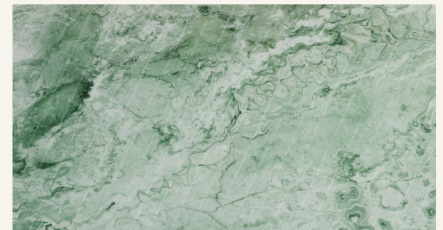

Bathrooms · Flooring · Large-Format Cladding

"Every FORMA Living dolomite slab carries the same 3-billion-year foundation — what changes is only the story written across its surface."

FORMA LIVING — AUSTRALIAN DOLOMITE COLLECTION

Surfaces for *every* space

From a statement kitchen island to a commercial facade, Australian Dolomite brings a locally quarried alternative to imported stone — without compromise on scale, consistency or finish.

Kitchen Benchtops

AUSDREAM · MINOS GREY · MINOS BEIGE

Honed or polished finishes with bookmatched island options, backed by consistent block supply direct from a single Pilbara quarry.

Bathrooms & Vanities

TANIER PINK · MINOS BEIGE · LAGUNA VERDE

Full-height wall cladding, monolithic vanity tops and integrated basins, with slab layout planning to maintain vein continuity across wet areas.

Feature Walls & Fireplaces

BLACKISH CLOUD · AUSRED · PINDANNI GREEN

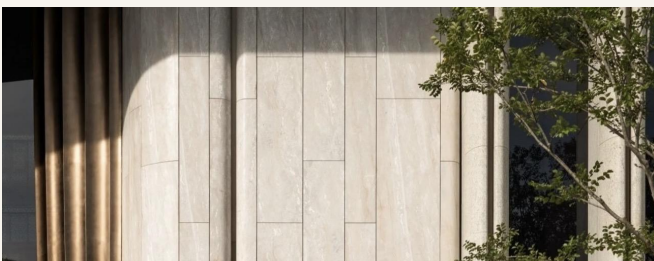

Bookmatched, full-height slabs create a showstopping focal point for living rooms, entries and lobbies — and bring warmth and presence to a fireplace surround.

Facades & Cladding

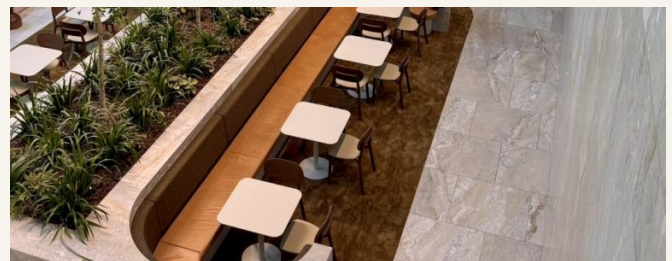

AUSDREAM · AUSRED · LAGUNA VERDE

Thick, continuous beds yield large, consistent blocks engineered for external performance — suited to residential exteriors and commercial facades alike.

AUSDREAM — INSTALLED

COMMERCIAL FACADE CLADDING, AUSDREAM

LOBBY FLOORING, AUSDREAM HONED

Built on 3 billion years of stability

Apparent Density	2,850 kg/m ³
Water Absorption	0.044 %
Compressive Strength	242 MPa
Flexural Strength	17–21 MPa
Mohs Hardness	5
Abrasion Resistance	20.5 mm
Slip Rating (Honed Surface)	Class P2

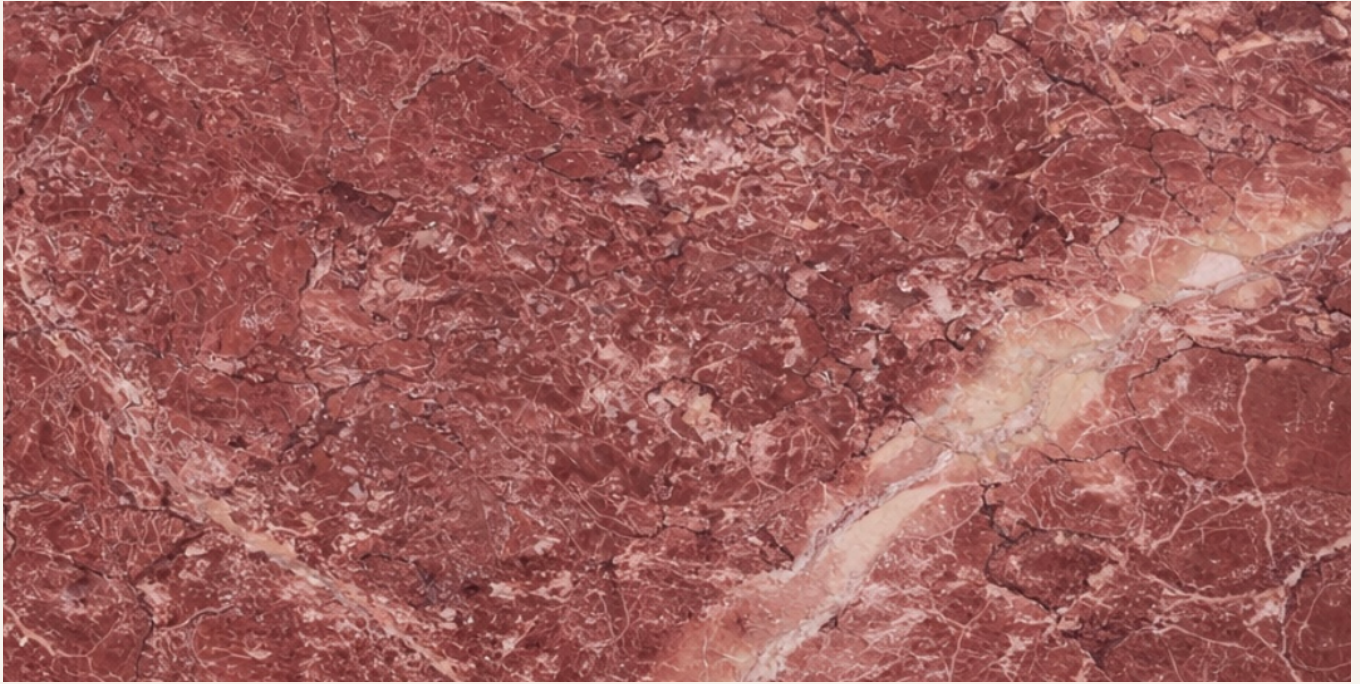

Values represent typical laboratory test results for Australian Dolomite quarried by FORMA Living, Pilbara, Western Australia. Natural stone is a product of nature — variation in colour, veining, texture and pattern between slabs and batches is inherent to the material and is not considered a defect.

Resource & Supply

A direct supply relationship with a dedicated quarry resource in Western Australia, giving FORMA Living consistent access to block selection, grading and supply — from quarry face to Brooklyn warehouse.

Standards & Stewardship

Sourced within Western Australia's regulatory framework, with a focus on health and safety, environmental management and respectful engagement with First Nations Traditional Owners.
